(U) What's a Detailee to Do?

Posted on April 29, 2015

UNCLASSIFIED//~~FOUO~~

source

Like all staff and contractors, detailees to CIA from other government agencies and military services are subject to the prepublication review requirements described in AR 13-10.

(b)(3) NatSecAct

3/27/2017

The CIA requires all current and former Agency employees and contractors, and others who are obligated by CIA secrecy agreement, to submit for prepublication review...all intelligence-related materials intended for publication or public dissemination.

Since, in most cases, detailees have an active secrecy agreement with their home organizations as well as with the Agency, their documents require review from both CIA and their home organization. In most situations where this is the case, the PRB will coordinate directly with other government agencies to complete the review. However, all IC member organizations are unique and have slightly different prepublication policies and procedures, so detailees should be sure to check with their home organization to ensure they are meeting their requirements as well.
